

Iron-A-Way®

Managing space with style®

MODEL | A-46 Naval Locker

For bulkhead installation on ships or use in military quarters and institutions where extra heavy duty indestructible equipment is a prerequisite.

The 18 gauge steel is designed to meet or exceed Naval specifications for strength, rigidity, and meets Grade “B” Shock Test as defined in MIL-S-901.

Standard Features

- Hot iron storage compartment lets you put the iron away immediately when finished.
- Fold-away 46” ventilated metal ironing board with 4” height adjustment.
- Steam/Dry iron hard wired in.
- Automatic disconnect switch automatically shuts the electricity off when the ironing board is in an upright position.
- Adjustable spotlight eliminates overhead shadows.
- Silicone treated cover and thick cotton pad.
- Fully assembled and ready for installation.
- One-year limited warranty.

**Sleeveboard not included.*
